

NOTICE OF A RATE HEARING

E.L.K. Energy Inc. has applied to change its electricity distribution rates effective May 1, 2024

If the application is approved as filed, a typical residential customer and a typical general service customer of E.L.K. Energy Inc. would see the following increase:

Residential (750 kWh)	\$2.65 per month
General Service less than 50kW (2,000 kWh)	\$4.27 per month

Other customers, including businesses, will also be affected.

The requested rate change is set using an OEB-approved formula, which is tied to inflation and other factors intended to promote efficiency.

In addition, E.L.K. Energy Inc. has applied for incremental capital funding for the purchase of two fleet vehicles and the purchase and installation of six recloser switches. E.L.K. Energy Inc. has also applied to recover the costs (and carrying charges) related to the damage caused to its distribution system by an ice storm and a thunderstorm. The impact of these purchases and the storm cost recovery is reflected in the above-noted bill impacts.

It's important to review the application carefully to determine whether you may be affected by the proposed changes.
